INTRODUCING THE DOPE GIRL OF THE MONTH:

Check it out!! Veronica hails from Texas and is a long time fan of SPM. She bought her first cd for \$10 at Trader's Village!!! Her favorite SPM song is "He's a Bird, He's a Plane" off the TIME IS MONEY CD. A direct quote from Veronica is: "I think SPM has motivated a lot of Hispanic/Mexicans to come out and be more open with being a Mexican rapper! I love Carlos Coy and all the Dope House Familia. I hope he is released soon cuz everyone needs him - I know I do."

LIGHTSKINMAMI187 is her Dope House handle! She is very active and creative on the site. Her love of SPM and the Dope House is AWESOME.

Veronica likes to spend time with her family. She calls herself a workaholic: as she is self-employed. Her favorite activities are playing tennis, swimming, exercising, and dominoes, shopping and kickin' it with her friends! Her pet peeve is FAKENESS in people. INTERVIEW WITH "CAROLYN RODRIGUEZ" - The Dope House Songbird

I sat with Carolyn last week and we chatted....this is the scoop:

Shawn: How long have you been in the music industry?

Carolyn: It's been about 8 years since I decided to make music my career choice, even though it seems like yesterday...

Shawn: What brought you to the Dope House?

Carolyn: I met a guy online who was recording some tracks there and he gave me the contact info to Pain's studio in response to a post about wanting studio time to record a demo, 'and the rest is history' as they say!

Shawn: What is your take on TLCV?

Carolyn: Oh man, it's the dopest stuff I've heard yet. We have a lot of live instruments on this album, like Christine Wu the violinist. She's sick wit it! Of course we also have the Dope House familia featured all over the album with Pain's excellent engineering behind it, so it's already a winning formula.

Shawn: I heard that you have your own album. Do you have plans for another one?

Carolyn: I have one solo album out in stores titled "Castellana" so far, and I am working on my next one called "Hood Melody" now. The first album was a little more commercial, but this one will be catered more to the street life and the struggle.

Shawn: Talk about upcoming events...

Carolyn: Wow, where to begin? I just finished the WEGO tour, a Texas-wide car show tour, and I will be in Odessa for the Tejano Super Show Nov.23 with my brother Juan Gotti, Baby Bash, and Lil Rob. If you're in the area, don't miss that one!

Shawn: How can fans contact you?

Carolyn: Myspace is the main way I communicate with fans (www.myspace.com/dopehousecarolyn), or through my dopespace and fan group on www.dopehouserecords.com. There's also my booking agent, the beautiful model Julie Johanna. Her contact info is on Myspace also.

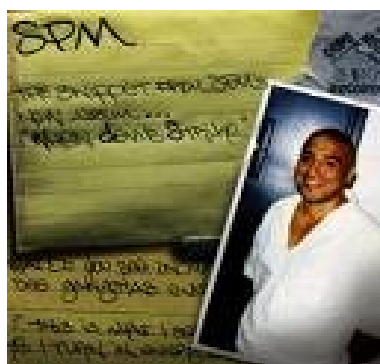

A Little About Gangs

It's ya boy S.P. I want you to know that I care about and love you very much. So many of my homies are and have been in gangs. And in every neighborhood I've lived in, from all Mexican to all Black, have been infested in gangs; Especially the Mexican neighborhoods. It's very sad to see so many young people throwing their life away. But what happens is we grow up with so much pain that it becomes a part of how we live. We just don't feel right unless we're angry, or fighting, or hurting. It's what we've been used to since the beginning. But the truth is gangs are destroying the lives of people that are in them. Gangs also separate communities and very often separate the people that are in them. When you're young, that's the time to learn all the good things in life. If it's crazy at the house, cool, you spend all day in school, so learn from there. School may be boring but it exercises your brain and it makes it stronger and stronger, able to learn at higher and higher levels. As long as you study and pass to the next level, your mind's capacity to learn increases. The higher the level in school, the higher your ability to do great in life. But gang members have a life that mostly distracts them from the right path. The majority of them aren't interested in what a teacher is saying. They begin to get into foolish things, like being concerned of who their enemies are and gang related activity; Activity that does nothing for a good life. They get taught to hate others who may be rivals and it escalates and sometimes people lose lives. When this happens, it becomes deeper and more personal. And it all started when they were just innocent kids getting taught to throw a gang sign. Our people could be all over American radio, all over the movie theaters, all over American television, all over the White House, and many more positive places but you see such a lack of our people. We lose so many of our hopes and dreams to gangs. I'm not saying everyone is getting killed, I'm just saying that so many great hopes are getting killed. So many great husbands, fathers, mothers, coaches, athletes, stars, never got a chance to become those things. And look man, I know that I was hard headed as a youngster and it's hard for me to expect you to listen. But all I ask is please stop teaching your little brothers, sisters, cousins, nephews, or anyone who's too young to know how that life will ruin their life. Don't throw your signs around them, talk to them about gang ethics because they'll naturally pick up on that and think it's cool. For some reason kids feel a joy in making signs with their hands. I think it makes them feel smart or something. But once they start doing that, it sets them up for failure. My son is seven and likes to throw up the duece sign. I see it in the pictures that my wife sends me. So on our last visit I told him that some day he'll see someone throwing up more than the duece sign. It will be gang signs and those are things you never want your fingers to make. We had a long talk because I know how cool other kids can make that stuff look. And man, I hate to make it sound so bad but it is. It destroys lives. So with all that said, and said with all my respect, we have to do our part in keeping this stuff off of our site. If we openly allow gang signs and references, it's like we're supporting it. So please don't hate us for caring about you. The Bible says never correct a fool or they'll hate you for it. I'm not trying to correct anyone, I'm just trying to help our people.

Con todo mi amor,
Los

PS. And I know I have references in my songs like "throw ya hood up, let me see yo sign language." I'm sorry. But never mistake rap lyrics as instructions to life. Back then I couldn't see a lot things. That's why I'm thankful I have an opportunity to see clearer. It's sad that it took prison but God works in ways beyond our understanding.

Take care and stay strong. Oh and watch out for my next album. I'm fitna wreck the world this time. I love you.
